Analytics Manager, Revenue Operations

Oct 2025 - Present

Grafana Labs | Cloud Observability, Open Source, SaaS | Remote

Shape GTM analytics delivery across Sales and Partner teams, producing scalable data models and executive-ready reporting that improve visibility into pipeline health, productivity, partner performance, and revenue outcomes.

Advance the revenue analytics foundation across Salesforce, BigQuery, dbt, and Grafana, prioritizing trusted logic, data quality, and actionable reporting for planning and decision-making.

HIGHLIGHTS

+ Expand GTM reporting across Salesforce, BigQuery, dbt, and Grafana for pipeline, quota, productivity, partner performance, and activity tracking.

+ Align RevOps stakeholders on reporting logic and validation requirements to improve consistency in leadership reporting.

+ Enrich core GTM models with Gong activity, territory hierarchies, and qualification logic to improve role-level reporting and planning readiness.

+ Resolve reporting gaps and data discrepancies across partner overlap, opportunity-split, and activity data before production release.

+ Surface complex GTM signals through reusable Grafana data sources and executive-ready reporting that support leadership decisions.

Reporting Architecture Analyst (Marketing & Performance Insights)

Jan 2025 - Oct 2025

StackAdapt Inc. | MarTech, AdTech, SaaS, Pre-IPO | Remote

Oversaw enterprise reporting across Marketing, RevOps, and Product, combining dashboard delivery, KPI governance, data validation, and enablement to improve reliability and adoption.

HIGHLIGHTS

+ Guided Tableau and ThoughtSpot reporting for campaign performance, product usage, and GTM strategy.

+ Investigated tracking issues with SQL and Python, cleansed event data, and validated attribution across Snowflake, Redshift, and MySQL.

+ Established reporting standards, KPI definitions, and data lineage that strengthened trust in business-critical analytics.

+ Rebuilt onboarding across four analytics teams with documentation, video modules, and AI training, reducing ramp-up time by 40%.

+ Provided guidance on campaign KPIs, brand lift, and incrementality, including CTR, eCPM, eCPA, eCPC, and ROAS.

+ Produced reusable reporting documentation and HighSpot collateral to strengthen enablement and process consistency.

Reporting Specialist

Sep 2021 - Jan 2025

StackAdapt Inc. | MarTech, AdTech, SaaS, Pre-IPO | Remote

Automated scalable client-facing reporting workflows that turned complex programmatic data into clear, actionable performance insights.

HIGHLIGHTS
